# Tolq

Quality levels and pricing

We believe in customised quality and pricing. The quality level you will need for your translations depends largely on the difficulty of your source text and the purpose of your texts.

Our team of experts is always ready to help you decide which quality level you need for your texts, and how you can reach your translation goals.

Translation

Equivalent to a professional translation aided by Tolq translation tools.

Suitable for product descriptions.

Price per word*

€0.08

Localization

Equivalent to a professional localized translation aided by Tolq translation tools.

Suitable for marketing texts, website or product localization.

Price per word*

€0.12

*Price per word for most language pairs. Different rates may apply for some others, such as Scandinavian languages.

Expert

Equivalent to professional specialized translation based on experience and expertise in a certain domain, e.g. legal, technical, or medical, aided by Tolq translation tools.

Where applicable, expert translations translators are selected with experience and/or certification in the expert area.

Price per word*

€0.20

Neural Machine Translation

Our smart combinations of human and Neural Machine Translations (NMT) are equivalent to computer generated translations. This quality offers an affordable option for translating your content, whilst still maintaining your desired quality level.

With the inclusion of our existing database from which the computer generated translations are sourced from, our NMT quality can be combined with your selection of Translation, Localization or Expert quality to cater to the needs of your content.

Price per word*

€0.0004

*****Price per word for most language pairs. Different rates may apply for some others, such as Scandinavian languages.**

Requirements

Each translation levels has different output of correction and consistency

Translation quality	Correct spelling & grammar	Unclear/illogical sentence corrected	Localized to target language	Consistent with Glossary	Consistent with Style Guide
Neural Machine Translation	-	-	-	-	-
Translation	✔	✔	-	✔	✔
Localization	✔	✔	✔	✔	✔
Expert	✔	✔	✔	✔	✔
